

## JOB OPPORTUNITIES:

The Inflation Reduction Act is growing the workforce by adding hundreds of thousands of good, family-sustaining jobs across the entire country. They have also launched an exciting new program—the American Climate Corps—to specifically train and employ 20,000 young people in careers in clean energy and energy efficiency, public lands and waters protection, environmental justice, and more.

You can sign up today at [whitehouse.gov/climatecorps](https://www.whitehouse.gov/climatecorps) to learn more about training in in-demand and well-paying sectors.

## COMMUNITY AND BUSINESS OPPORTUNITIES:

There are funds available for your community and for local businesses to install solar panels and finance renewable energy, energy efficiency, water conservation, community greening projects, and more. Visit [www.irs.gov/credits-deductions/businesses](https://www.irs.gov/credits-deductions/businesses)

## OPPORTUNITIES FOR K-12 SCHOOLS:

Federal funding is available now to replace aging school buses with zero-emission models to protect students from toxic diesel pollution. Indiana schools have already been awarded **70 clean school buses**. In addition, upfront resources are available for school districts seeking to save money by powering their buildings with clean energy and growing their energy efficiency.

## Benefits Available NOW:

**CLEAN ENERGY:**  
30% tax credit on solar, geothermal, and battery storage

**ELECTRIC VEHICLE:**  
Up to a \$7,500 tax credit for new vehicles, up to \$4,000 for used vehicles

**ENERGY EFFICIENCY:**  
30% tax credit on insulation, windows, appliances, and more

# CLEAN ENERGY BENEFITS AVAILABLE TO YOU

## ELECTRIFYING HOMES AND APPLIANCES:

### BENEFITS TO HOMEOWNERS

Tax Credits you can access now for clean energy systems, such as:

- **30%** Federal Tax Credit for rooftop solar
- **30%** Federal Tax Credit for geothermal
- **30%** Federal Tax Credit for battery storage

The Indiana Office of Energy Development will administer the **Home Efficiency Rebate (HOMES)** and the **Home Appliance Rebate (HEAR)** programs which will provide point of sale rebates by late 2024/early 2025:

- Up to **\$1,600** for weatherizing your home
- Up to **\$4,000** for an electric panel
- Up to **\$1,750** for a heat-pump water heater
- Up to **\$8,000** for a heat-pump air conditioner/heater

Scan here for information on Indiana's rebate program: **Indiana Energy Saver Program**

### BENEFITS TO RENTERS

Ask your landlord or make your own upgrades to take advantage of these benefits:

- EV tax credits
- Home Appliance Rebates for Low- and Moderate-income households: **induction cooktops, clothes dryers, electrical upgrades**

## NOT SURE WHERE TO START?

You may qualify for a **free** in-home energy assessment with your electric utility where a trained professional will come to assess your current energy use and identify measures that can make your home more energy efficient.

Save **UP to \$150** for an audit completed in the next 10 years under the **Energy Efficient Home Improvement Credit**. That's roughly 30% of the total cost!

## ELECTRIC VEHICLES, NEW AND USED:

- **New EVs Credit:** Up to a **\$7,500** credit for electric vehicles. *Must be a qualifying vehicle*
- **Used EVs Credit:** Up to **\$4,000** or 30% of the vehicle's sale price (*whichever is lower*)
- **EV Charger Credit:** Up to **\$1000** or 30% of the cost (*whichever is lower*)

Some authorized car dealerships may offer a **point of sale discount** in exchange for your tax credit. Reports by sellers must be given at the time of sale.
